EXPERIENCE

Social View Agency – Los Angeles, CA

Aug 2025 - Nov 2025

Business Intelligence MBA Intern

- Designed and executed A/B tests using SQL query analysis and Tableau dashboards, identifying optimization opportunities that improved user conversion by **+13%**, scaling successful A/B testing framework and formats across multiple campaigns.
- Built automated Tableau dashboards tracking **12+** campaign performance KPIs (conversion rate, engagement rate, cost-per-action, user acquisition cost).
- Wrote SQL queries to extract daily performance data and identify trends, enabling account managers to accelerate optimization decisions by **50%**.

VALOBANNERS (Valorant Merchandising) – Los Angeles, CA

May 2022 - Aug 2024

Data Analyst, LiveOps

- Designed and executed A/B tests on battle pass reward structures and in-game events, analyzing player behavior data to improve retention by **25%** and ARPU by **18%**, informing product roadmap decisions for senior leadership.
- Built Mixpanel and Tableau dashboards tracking **15+** core game KPIs (retention cohorts, ARPU, churn rate, event performance, economy health), enabling LiveOps team to identify optimization opportunities and implement data-driven feature adjustments.
- Wrote SQL queries and Python scripts to extract and analyze player behavior data; identified engagement trends that informed **8+** feature optimizations, reducing decision cycles by **40%** and contributing to **18%** ARPU growth.
- Implemented game telemetry tracking and established data collection standards with design and product teams, improving data accuracy by **95%** and enabling **12+** rigorous A/B tests monthly.

H&R Block – Los Angeles, CA

Sept 2021 - April 2022

Data Analyst

- Designed and executed BigQuery queries and SQL schemas to extract campaign and user behavior data at scale.
- Built automated Python monitoring scripts that identified optimization opportunities, improving cost-per-acquisition by **22%** and maintaining **8-12%** click-through rate during peak seasons.
- Designed and executed A/B tests on email and landing page messaging using statistical analysis.
- Translated test results into actionable recommendations, improving cost-per-lead by **15%** and conversion rate by **68%** YoY.

SPECIAL PROJECT

Hot Wheels Racing Game – Riverside, CA

Jan 2025 – Mar 2025

UC, Riverside, MGT 257: Marketing Strategy

- Designed and distributed player surveys, analyzing behavioral data to identify distinct player segments and engagement drivers.
- Developed targeted monetization strategies for each player cohort (casual, whale, seasonal), forecasted ARPU impact to recommend tailored battle pass pricing, and built retention cohorts and engagement curves to validate recommendations.
