EXPERIENCE

Social View Agency – Los Angeles, CA

Aug 2025 - Nov 2025

Marketing Strategy & Analytics MBA Intern

- Created social media campaigns that promoted the CartZilla brand, the viral 400-horsepower, street-legal giant shopping cart attraction in Las Vegas.
- Collaborated with Business Development and Content to set up product launch campaigns, including SEO, relevant metadata, copy, creative briefs, product images and artwork.
- Analyzed over 200 social posts against historical data sets (e.g. sales performance) and identified content improvement opportunities; created an action plan for implementing new changes
- Performed post-promotional analysis to assess promotion effectiveness against KPIs to support sales projections, supporting other teams with business intelligence and marketing insights.

VALOBANNERS (Valorant Merchandising) – Los Angeles, CA

May 2022 - Aug 2024

Marketing Manager - Merchandising

- Created and led marketing function, which heavily supported business growth and new partnerships.
- Drove measurable follower growth across client accounts, achieving **18-25%** quarter-over-quarter growth through strategic content planning and campaign execution that balanced brand consistency with platform-specific content optimization.
- Transformed social analytics into data-rich insights and delivered recommendations to senior leadership, resulting in a **25%** increase in monthly sales and turning social momentum into direct commercial outcomes.

Marketing Coordinator

Aug 2021 - May 2022

- Built brand guidelines and ensured all teams understood how best to meet them, providing marketing insights and support across projects.
- Optimized campaign performance by tracking **40+** KPIs across platform analytics dashboards, generating weekly performance reports that enabled client engagement rates of **4-6%** on TikTok and **2-3%** on Instagram.

H&R Block – Remote

Sept 2022 - Apr 2023

Data Analyst

- Designed and executed A/B tests on email and landing page messaging using statistical analysis.
- Translated test results into actionable recommendations, improving cost-per-lead by 15% and conversion rate by 68% YoY.
- Visualized marketing analytics with Python/SQL and provided data insights to all teams, which informed business decisions and enabled revenue growth.
